

## **Building a Blue Orchard Bee Model**

### **Materials**

- white paper, wax paper or tissue paper for wings
- dark blue, and other colours of construction paper (for body parts, antennae, and legs)
- glue sticks or tape
- crayons, coloured pencils, markers
- safety scissors
- yellow chenille stems

### **Other materials**

- seeds
- egg cartons
- other chenille stems
- pom-poms
- leaves
- fake fur – yellow & blue

Cut out the circles and ovals for your bee's head, thorax and abdomen. Or use leaves and seeds. Cut strips of paper for legs and antennae or use chenille stems. If the bee that you are creating collects pollen on its abdomen, add some yellow fake fur or some chenille stems on the underside of your bee.
